

-
- Technical drawing of a mechanical part, showing a cross-section. The part has a curved outer profile and a straight inner profile. A dimension line indicates a length of 292.50 units. The drawing is oriented vertically, with the dimension line running horizontally across the middle.

p

A horizontal number line with a vertical tick mark at the origin labeled '0'. A point labeled 'z' is marked on the line to the right of the origin.

$$\frac{1}{2}$$
