

Technical Specification

SODIUM SELENITE

Chemical Formula: **Na₂SeO₃**CAS #: **10102-18-8**

1. Analytical Results

Properties	Min	Max	Unit
Selenium	45		%
Pb		0.002	%
As		0.001	%
Cd		0.0005	%
Hg		0.00001	%

2. Appearance

White crystalline powder

3. Packaging

Standard: 25 kg steel drums

Upon demand customized specifications can be provided.

The properties as described by this document are valid if the product is stored in the original packaging and under the proper conditions as mentioned on our safety data sheet.

Revision 4.1
