

BergaFat F-100 Premium

Rumen stable fat, for high-performance dairy cows, made from fractionated palm fatty acids; entirely vegetable; without carrier. Energy value based on NRC (2001): approx. 26 NEL MJ/kg

Parameter	Value	Unit
Colour*	creamy white	
Total fat content	≥ 99	%
Moisture / Impurities	≤ 1	%
Iodine value	≤ 15	g I ₂ /100 g
Unsaponifiable matter*	≤ 2.5	%
Slip melting point	≥ 54	°C
Free fatty acids	≥ 70	%
Fatty acid composition		
C14:0	≤ 5	%
C16:0	≥ 80	%
Saturated fatty acids	≥ 85	%
Unsaturated fatty acids	≤ 15	%
Declaration	Feed material	
Shelf life	Min. 18 months from manufacturing date, when properly stored under below mentioned storage conditions and in original unopened packaging.	
Storage conditions	Keep in closed original packaging, away from sunlight, high air moisture or extreme temperatures. Recommended storage temperature 15-25°C.	
Packaging	650 kg PP-Big Bags, 25 kg PE-coated bags	

*Parameter under statistical control and not shown on CoA.

No GMO labeling required according to Regulation (EC) No 1829/2003 and 1830/2003.

This specification is no warranty for the suitability to a special application on customer side. The user of the product is responsible for the compliance with all applicable laws, regulations and standards applying to the use of the product.
