

Hepatron® Natural 95 %

Identification:

PREMIX

Animal category:

Pigs and poultry

Product description:

PREMIX of natural betaine derived from sugar beet and kieselgur* for feeding to pigs and poultry

Dosage:

Poultry for fattening:	250 – 1000 g / t final feed
Laying hens:	150 – 1000 g / t final feed
Piglets:	250 – 1000 g / t final feed
Pigs for fattening:	100 – 1000 g / t final feed
Lactating sows:	250 – 1000 g / t final feed
Gestating sows:	100 g / t final feed

Additives:*Vitamins, pro-vitamins and chemically well-defined substances having similar effect:*

Betaine from Betaine anhydrous (3a920) 95.0 %

Anticaking agents: substances that reduce the tendency of individual particles of a feedingstuff to adhere:

Kieselgur* (diatomaceous earth, purified) (E 551c) 2.0 %

*Kieselgur can be used for organic farming

Characteristics:

Hepatron® Natural 95 % is supplied as free-flowing, light brown crystals.

The shade of brown may vary slightly from batch to batch.

Instructions of use:

During storage, Hepatron® Natural 95 % may form lumps, which can be dissolved by mechanical action. Lumps do not affect product quality.

Heat stability:

Heat stable up to 200 °C (390°F).

Safety and handling:

Provide good ventilation and avoid dust formation. It is recommended to use protective glasses, respiratory masks and gloves during handling. In case of accidental contact with skin and eyes, the only action needed is copious flushing with water. See the Material Safety Data Sheet for further information.

Storage stability:

24 months after manufacturing date if stored in a dry and cool (<25°C) place in original packaging. This product is water-attracting and must be stored in unopened bags.

Packaging:

25 kg bag

Version: 01

Issued: 11 / 2020
